Date: 03/20/2017

Grant Title: HHS Library Media

School: Holdenville High School

Grade Level(s): 8-12

Content Area: All subject areas

Total Dollar Amount Requested: \$3,000.00

1. What is the major educational need this grant addresses? Please give grade level and academic area.

Budget shortfalls have not allowed the ordering of new and current books (eBooks) of interest for the students in our 8th-12th grade academic setting. For example, last year we had very few books added to our library that were purchased outside the HHS grant. It is important to keep in mind that many works of fiction for young readers today are series designed to encourage continued interest in reading. This year I would like to focus on ordering eBooks for the Kindles that were purchased with the help of an anonymous donor. Purchase of eBooks will allow me to add series to Kindles. This will allow students to read an entire series without waiting for the next book to be returned. Each year, some books naturally end up lost or tattered. The readings are crucial to vocabulary development and exploration of all academics subjects. This ties in directly with core curriculum instructions. Additionally many teachers request particular books for students who are required to test in the Accelerated Reader program.

2. Approximately how many pupils will be affected by this project, both directly and indirectly?

There are 350 students attending Holdenville High School in grades 8th – 12th. The library is accessible to all students in our school setting as well as the teachers. This grant will be of great benefit to all of them for many years.

3. Describe your grant including methods, materials and objectives.

Foundation grants are intended to fund a creative teaching plan, so if equipment or materials are requested it should be clearly stated as to why these are an integral part of the plan.

This grant will provide materials for all subjects across the curriculum (such as the Language arts, Social Studies, and Science). Teachers and students will be able to use these materials to enhance their learning experience. They will be able to accomplish classroom assignments given students involving use of library books. (e.g., Research papers on places, times, and people, and book talks) These books will also be used for reading during our reading time and for students to fulfill their AR (Accelerated Reading) requirements in the classroom. The classroom teachers will be able to use these books to fulfill their PASS Skill requirements.

Library PASS Skills, this grant will meet:

- 1.) Follow an inquiry-based process in seeking knowledge in curricular subjects, and make the real world connection for using this process in own life.
- 2.) Develop and refine a range of questions to frame the search for new understanding.
- 3.) Find, Evaluate and select appropriate sources to answer questions.
- 4.) Evaluate information found in selected sources on the basis of accuracy, validity, and appropriateness for needs, importance, and social and cultural context.
- 5.) Read, view, and listen for information presented in any format (e.g., textual, visual, media, digital) in order to make inferences and gather meaning.
- 6.) Make sense of information gathered from diverse sources by identifying misconceptions, main and supporting ideas, conflicting information, and point of view or bias.
- 7.) Display initiative and engagement by posing questions and investigating the answers beyond the collection of superficial facts.
- 8.) Demonstrate creativity by using multiple resources and formats.
- 9.) Maintain a critical stance by questioning the validity and accuracy of all information.
- 10.) Continue an inquiry-based research process by applying critical-thinking skills (analysis, synthesis, evaluation, organization) to information and knowledge in order to construct new understandings, draw conclusions, and create new knowledge.
- 11.) Organize knowledge so that it is useful.
- 12.) Use strategies to draw conclusions from information and apply knowledge to curricular areas, real-world situations, and further investigations.
- 13.) Collaborate with others to exchange ideas, develop new understandings, make decisions, and solve problems.
- 14.) Use the writing process, media and visual literacy, and technology skills to create products that express new understanding.

4. Give a time schedule of implementation.

If funded, the books or eBooks will be purchased and utilized immediately.

5. Detail your budget request. Include specific information about kinds of materials and equipment needed, sources of supply, and costs (including shipping and handling). If possible, list alternatives if full funding is not available.

Books purchased for each Kindle is considered a **permanent** account. Therefore each book has to be purchased, more than once, if the book is to be available on more than one Kindle.

Permanent

Books are tied to the account they are sent to. So, unlike physical books, once they are sent to a User account, they cannot be taken back from that User and given to a new User the following term. *(Copied from AmazonWispercast site.)*

I am requesting \$3,000.00 to purchase books and eBooks for Kindles.

See attached list for titles of books being considered for purchase. Wispercast does not let you make a list with a quote. Once you put an item in your cart it goes straight to purchase. The school has a Wispercast account for purchases. Money is placed into the account and deducted as I purchase and assign to Kindles. If funds are not possible for the entire grant, any amount would be appreciated and the order will be adjusted appropriately.

6. What methods will be used for measuring the stated objectives, or what definite evaluation will you make to determine whether the grant was successful? (Please be specific)

Teacher observation, test scores and Accelerated Reader test scores will show if the grant was successful.
