Grants to Teachers Application Form

*Please use a typewriter or word processor to complete the application.
Submit in the format listed below.*

Date: March 28, 2020

Grant Title: An Ounce of Prevention

School: Thomas Middle School

Grade Level(s): 4-7

Content Area: Character education, health, science

Total Dollar Amount Requested:

~~3073.90~~

\$1500⁰⁰

1. This grant focuses on teaching risks associated with the use of drug, alcohol, and tobacco. Materials will be available to teachers of character education, health, and science for presentation to students in grades 4-7.
2. It is expected that our whole student body will benefit from this grant. Additionally, it is my hope to implement a parent night where families can go through stations together with their children and discuss the risk involved with these behaviors.
3. The materials include a variety of hands on models, activities, and games intended to initiate a dialogue concerning the use of drugs, alcohol, and tobacco. This would be a layered approach, with materials to be used in a variety of settings, including community outreach events. I have carefully chosen items that I believe will engage our students in a way a textbook or video simply cannot.
4. We will begin using these items as soon as they arrive. We will make heavy use of them especially during red ribbon week in October, but they will be available for health and science lessons on an ongoing basis.
5. All items will be ordered through Nimco at a cost of 2794.45, with shipping costs of 279.45 for a total of 3073.90. A detailed list has been attached for review.
6. When teachers check out materials for use, they will submit a detailed lesson plan followed by an evaluation of how the lesson went. When used for community outreach, guests will be asked to fill out an evaluation to help us monitor response.
